

## **HVAC Sales Engineer**

The CGC Group of Companies is a multi-faceted company operating a manufacturing facility, distribution network and a GTA sales organization. The CGC Group is part of a worldwide organization with headquarters in Toronto and Sweden (NIBE).

Due to our success and further growth plan, we are looking for an HVAC Sales Engineer to assist in the application of our leading technology.

Our core technologies include:

- Bulldog Hybrid Heat Pumps
- Make Up Air Units
- Compax Modular Chillers
- Geothermal Applications

Reporting to the Director of Business Development, the main responsibilities and objectives will be to promote and explain the merits and benefits of a very energy efficient HVAC system to consulting engineers, owners, and developers in the GTA and South Western Ontario market. Negotiations with contractors are an integral part of the duties.

The successful applicant will possess a strong HVAC technical background and a proficiency in dealing with people. Knowledge of Bid and Spec in the HVAC construction market is required. The ideal candidate will be a graduate of Mechanical Engineering. Strong communication skills and computer literacy are a requirement. An understanding of the energy code requirements would be a great asset. Individuals with existing relationships in the GTA Engineering and mechanical contracting community are preferred.

We offer an attractive compensation & commission's package plus benefits and an exceptional opportunity for career development. We thank all applicants for showing an interest in this position. Only those selected for an interview will be contacted.

All qualified applicants are invited to submit their resumes to: [hr@cssi.ca](mailto:hr@cssi.ca)
