

Why should you use a Bulldog Heat Pump System?

Because a Hydronic Heating system offers design flexibility and benefits that a reversing WSHP doesn't.

Quieter

Modulating heat

Uses less electricity

Fewer moving parts

Has lower failure rates

More reliable

Better heat sharing capability

40-70% lower heating costs

Because a compressor that doesn't operate....

Doesn't make any noise

Doesn't fail

Doesn't consume any power

Has lower operating costs

Lasts longer

A Bulldog system delivers benefits for the building owner, the occupants, and the budget.

Dry Cooler capability

Chassis change out in minutes

Fresh air delivered directly to occupied space

Low flow rate

Smaller footprint

Smaller emergency generator

Dehumidification

Fewer water loops
