Times Square, NYC

Why Choose Bulldog?

Because a Hydronic Heating system offers design flexibility and benefits that a reversing WSHP doesn't.

- Quieter
- Uses less electricity
- Has lower failure rates
- Better heat sharing capability
- Modulating heat
- Fewer moving parts
- More reliable
- 40-70% lower heating costs

Because a compressor that doesn't operate...

- Doesn't make any noise
- Doesn't consume any power
- Lasts longer
- Doesn't fail
- Has lower operating costs

A Bulldog system delivers benefits for the building owner, the occupants, and the budget.

- Dry Cooler capability
- Smaller footprint
- Dehumidification
- Fresh air delivered directly to occupied space
- Chassis change out in minutes
- Low flow rate
- Smaller emergency generator
- Fewer water loops

No other heat pump does more, with less.
